## New SAT materials!

We've learned enough about this new exam to overhaul our 1.0 books, and debuting with the Ultimate 18 program will be a NEW SAT Manual (just ONE title—no more 3 books!).

This new book will be the SAT Manual 6.0 and is our newest and most complete SAT course book yet.

Outside the classroom, each student receives a personalized study plan focused on maximizing their individual practice to improve scores faster! Students will be prompted to track their goals, take charge of their supplemental prep schedule, and have ready access to vital resources to help them on their college admissions path.

Many students now elect to take both the SAT and ACT exams even earlier. By comparing your predictive score from the left table, students taking either exam can get an idea of how their score will translate to the other exam!
